

Technical drawing of a rectangular plate with dimensions and area calculation.

The plate has a total width of 100.0 cm and a total height of 70.0 cm. The width is divided into three sections: 56.0 cm, 22.0 cm, and 22.0 cm. The height is divided into two sections: 56.0 cm and 14.0 cm.

The area calculation is shown as follows:

$$A = 56.0 \times 56.0 + 22.0 \times 56.0 + 22.0 \times 56.0 + 56.0 \times 14.0 + 22.0 \times 14.0 + 22.0 \times 14.0$$

$$A = 3136.0 + 1232.0 + 1232.0 + 784.0 + 308.0 + 308.0$$

$$A = 6800.0 \text{ cm}^2$$
